Dear Friends,

### **Welcome to the Holistic Child Health Newsletter.**

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children.

Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

***Lawrence B. Palevsky, MD***

**CALL TO ACTION!!!**

**ACT NOW: Tell Your Governor and Local Legislators  
That COVID-19 Vaccines Must be Voluntary!**

Personal choice, not public pressure or coercion, must be the only factor in getting the vaccine.

In May, the New York State Bar Association issued an 83-page report calling for mandatory COVID-19 vaccinations for all Americans; the only exception, the association said, would be doctor-ordered medical reasons. The association — one of the nation's largest state bar groups — joins a growing number of organizations, government leaders and corporations voicing support for mandating a COVID-19 vaccine when it becomes available. Large entertainment companies are being directed by the president of the United States to require patrons to show proof of vaccination before they're permitted to attend music, sporting and other events.

There is a growing divide among Americans over whether they will get a COVID-19 vaccine.....

It is unethical and immoral to mandate an experimental vaccine that has known safety concerns and for which there is no liability due to the PREP Act of 2005. Requiring individuals to get the vaccine in order to work, attend school, participate in their community, travel or enjoy other privileges is subjecting them to a medical intervention through coercion, which violates their informed consent. Such subjugations also violate individuals' basic human rights, constitutional rights and religious rights.

As the financial stakes get higher and public pressure mounts for individuals to get the COVID-19 vaccine, what will you do when you are asked or told to get the vaccine? What if you have concerns? What if getting the vaccine violates your religious convictions or goes against your morals or better judgment? What if you or

your child is at risk for an adverse reaction? What if you're not at risk for COVID? Or what if you just feel like saying no?

Stand up for your basic human rights NOW! Every individual has the right to informed consent and to decline a medical intervention! Tell your governor and your local lawmakers that medical mandates don't belong in a free society. Click below to send a pre-drafted (and customizable) email and tweet urging your officials to make the COVID-19 vaccine voluntary, not mandatory. Let them know that the only one who stands to profit from the coronavirus vaccine is the pharmaceutical industry — and that personal choice, not public pressure or coercion, must be the only factor in getting the vaccine.

## UPCOMING EVENTS

## NVIC's Vaccine Awareness Week 2021 is underway!

Beginning Sunday, Sept. 26 and through Saturday, Oct. 2, 2021 the non-profit charity National Vaccine Information Center (NVIC) and holistic health pioneer Dr.

Joseph Mercola, founder of Mercola.com, are co-sponsoring Annual Vaccine Awareness Week, a week dedicated to raising awareness about vaccination, health and informed consent.

Since 1982, NVIC's mission has been to prevent vaccine injuries and deaths through public education. In defense of human rights, including freedom of thought, speech, conscience and informed consent to medical risk taking, which includes vaccine risk taking, NVIC works to secure and protect flexible medical, religious and conscientious belief exemptions in U.S. vaccine policies and laws. Spread the word and pass this information on to your family and friends. Revisit this webpage during Vaccine Awareness Week (VAW) for release of live links to video interviews, commentaries, articles and an exciting 2021 annual vaccine legislation action report.

## ABOUT DR PALEVSKY

Dr. Palevsky is a NYS licensed pediatrician, who utilizes a holistic approach to children's wellness and illness. Dr. Palevsky received his medical degree from the NYU School of Medicine in 1987, completed a three-year pediatric residency at The Mount Sinai Hospital in NYC in 1990, and served as a pediatric fellow in the ambulatory care out-patient department at Bellevue Hospital, NYC, from 1990-1991. Since 1991, his clinical experience includes working in pediatric emergency and intensive care medicine, in-patient and out-patient pediatric medicine, neonatal intensive care medicine, newborn and delivery room medicine, and conventional, holistic and integrative pediatric private practice.

Dr. Palevsky is a diplomate of the American Board of Integrative Holistic Medicine, and Past-President of the American Holistic Medical Association. He received his pediatric board certification in 1990, and passed his pediatric board recertification exams in 1997, 2004, and 2011.

In his current practice in Northport, Long Island and Manhattan, NYC, Dr. Palevsky offers well-child examinations, consultations and educational programs to families and practitioners in the areas of preventive and holistic health; childhood development; lifestyle changes; nutrition for adults, infants and children; safe, alternative treatments for common and difficult to treat acute and chronic pediatric and adult conditions; vaccination controversies; mindful parenting; and rethinking the medical paradigm. Additionally, he teaches holistic integrative pediatric & adolescent medicine to parents, and medical and allied health professionals, both nationally & internationally, and is available for speaking engagements worldwide.
