

Holistic Child Health Newsletter July 2018

Dear Friends,

Welcome to the Holistic Child Health Newsletter.

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children. Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,
