

Dear Friends,

Welcome to the Holistic Child Health Newsletter.

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children.

Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

Lawrence B. Palevsky, MD

ACTION ALERT

Maintaining Medical Freedom: Urgent Action Required

Threats to end religious and philosophical vaccine exemptions have just been ratcheted up to an unprecedented federal level.

If parents and caregivers are stripped of the ability to make healthcare decisions for their children, reinstating that ability may be nearly impossible. We need to take action now to prevent the government from dictating what is injected into our children.

On Wednesday, FDA Commissioner Dr. Scott Gottlieb hinted in a CNN interview that if non-medical vaccine exemptions were not abolished at the state level, federal health agencies may intercede. This is especially ominous considering two critical upcoming vaccine-related hearings recently announced on Capitol Hill:

Wednesday, February 27, 10:00 a.m. The Energy & Commerce Oversight and Investigations Subcommittee held a hearing on the current measles outbreak and response efforts.

Tuesday, March 5, 10:00 a.m. The HELP Committee (Health, Education, Labor and Pensions) will hold a hearing, Vaccines Save Lives: What is Driving Preventable Disease Outbreaks?

We absolutely must have representation at these hearings. It's crucial that we have as many parents and advocates as possible in attendance at both. And if your Senator or Congressional representative is on one of these committees, it is critical that they hear from you! [Click here](#) for the Energy & Commerce Oversight and Investigations Subcommittee members and [here](#) for the HELP Committee members.

Every single one of us needs to contact our Congressional representatives and Senators starting right now. In your communications, be sure to emphasize that:

These hearings need to be fair, balanced, and include opposing viewpoints. We have many highly qualified individuals to present those viewpoints.

Issues related to vaccines should be governed by the states.

Over \$4 billion has been paid out for vaccine injuries and deaths and HHS estimates less than 1% of adverse events are reported. Mandating any procedure involving such risks is unethical.

HHS has failed in its Congressional directive to study vaccine safety for 30 years. Mandating liability-free vaccines that have not been properly safety tested is in direct opposition to the first tenet of the Nuremberg Code: The voluntary consent of the human subject is absolutely essential.

If you have a vaccine-injured child, tell your story. This personal input to those who represent you in our nation's capital illustrates the harsh reality of a vaccine program geared towards industry profit rather than public health.

We have much more information on all the many ways our government has failed to protect our children here and factual information that may aid in the defense of health freedom and pushing back mandates here.

The future of medical freedom is at stake. Ensuring that our federally elected representatives hear from all of us through emails, faxes and phone calls to both their DC and district offices has never been more important than it is at this moment. If we are to maintain medical freedom and protect the health of generations to come, we need to raise our united voices now! Please share this alert with friends and family and urge them to do the same.

Vaxxed II: The People's Truth

'Vaxxed II: The People's Truth' is the follow-up to the award-winning documentary, 'Vaxxed: From Cover-Up To Catastrophe.'

When we set out across America promoting Vaxxed, thousands of empowered parents traveled miles to share the stories of what happened to their children. These stories created a movement. A revolution that will change history forever. The parents have been lied to and will be silenced no longer.

This is your story, your truth, and now we need your help to tell it.

ABOUT DR PALEVSKY

Dr. Palevsky is a NYS licensed pediatrician, who utilizes a holistic approach to children's wellness and illness. Dr. Palevsky received his medical degree from the NYU School of Medicine in 1987, completed a three-year pediatric residency at The Mount Sinai Hospital in NYC in 1990, and served as a pediatric fellow in the ambulatory care out-patient department at Bellevue Hospital, NYC, from 1990-1991. Since 1991, his clinical experience includes working in pediatric emergency and intensive care medicine, in-patient and out-patient pediatric medicine, neonatal intensive care medicine, newborn and delivery room medicine, and conventional, holistic and integrative pediatric private practice.

Dr. Palevsky is a diplomate of the American Board of Integrative Holistic Medicine, and Past-President of the American Holistic Medical Association. He received his pediatric board certification in 1990, and passed his pediatric board recertification exams in 1997, 2004, and 2011.

In his current practice in Northport, Long Island and Manhattan, NYC, Dr. Palevsky offers well-child examinations, consultations and educational programs to families and practitioners in the areas of preventive and holistic health; childhood development; lifestyle changes; nutrition for adults, infants and children; safe, alternative treatments for common and difficult to treat acute and chronic pediatric and adult conditions; vaccination controversies; mindful parenting; and rethinking the medical paradigm. Additionally, he teaches holistic integrative pediatric & adolescent medicine to parents, and medical and allied health professionals, both nationally & internationally, and is available for speaking engagements worldwide.
