

Dear Friends,

Welcome to the Holistic Child Health Newsletter.

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children.

Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

Lawrence B. Palevsky, MD

RECOMMENDED BY DR PALEVSKY

Let me introduce you to **Prime My Body....**

As a pediatrician, I see children dealing with levels of extreme anxiety like never before. The constant fight or flight response affects all aspects of our well-being - sleep patterns, emotional and mental states, ability to focus and manage trauma. It was recently discovered that we have an endocannabinoid system that regulates all of the other systems in our body. This system has become deficient with the overload of toxins and excessive stress from today's world. Hemp, which is a food high in cannabinoids, brings our bodies back into balance when we consume it.

**PLEASE DOUBLE CLICK ON THE IMAGE BELOW TO WATCH
THIS VIDEO MESSAGE FROM DR PALEVSKY**

PRIME BODY[®]

INDEPENDENT AFFILIATE

I specifically recommend the **CALM** Formula, which contains both CBD and CBG, for children as a solution to support the body during these traumatic times and naturally restore their bodies to a state of homeostasis. It can be taken in the morning before school or daily activities and/or at night before bedtime to help with sleep.

- Helps quiet restless, racing brain activity
- Suppresses sleep-inhibiting hormone messaging
- Supports mind & body homeostasis
- Supports composed and balanced well-being
- Promotes the activation of natural melatonin release
- Helps to regulate and balance mood

Some children do better with more CBG and in that case I would recommend the **FOCUS** Formula, which has a higher concentration of CBG along with other terpenes. Many children who have a hard time concentrating would benefit from a dose of FOCUS before school or morning activities. CBG serves as the pre-cursor or mother phytocannabinoid to many others, including CBD and THC.

Because industrial hemp plants are known to produce only trace amounts of CBG, sophisticated measures are taken to only extract CBG for its use in FOCUS.

Having a direct effect on the endocannabinoid system and cannabinoid receptors, CBG provides a wealth of benefits that support preventative, chronic, and acute care.

A major finding of CBG is its neuro-protective and neuro-regenerative traits. It is also a valuable resource for gut health!

- Completes the entourage effect
- Contains anti-bacterial properties
- Promotes neuro-regeneration/protection
- Supports bone health
- Improves mood & gut health
- Supports rest & sleep
- Promotes Natural Analgesic (discomfort relief)

Other children do better with only CBG and for those children I would recommend the **SHIELD** product which only has CBG along with other powerful immune boosting botanicals. SHIELD's 18 carefully curated botanical ingredients + CBG provide a wide-range of immune-supportive benefits that help to protect you. The MCT oil base (unlike the other two formulas) targets the gut and digestive tract so that the body absorbs it differently than the other products that enter directly into the blood stream with their nano-particle size. The elderberry taste is also well received by children or easily added to juice.

- Supports and stimulates optimal immune function
- Minimizes stress that impairs immune health and its response system
- Promotes white cell production
- Supports faster recovery during declined health
- Helps balance endocannabinoid system function

I highly recommend trying a variety of products and doses for your children (and yourself) to see which work best for you. As I mentioned in my video, this is the first time I have ever endorsed any product of any kind, but I believe our cannabinoid systems need to be nourished and have seen improvements in my patients who whose CBD and CBG - and these are products I feel confident to stand behind.

ABOUT DR PALEVSKY

Dr. Palevsky is a NYS licensed pediatrician, who utilizes a holistic approach to children’s wellness and illness. Dr. Palevsky received his medical degree from the NYU School of Medicine in 1987, completed a three-year pediatric residency at The Mount Sinai Hospital in NYC in 1990, and served as a pediatric fellow in the ambulatory care out-patient department at Bellevue Hospital, NYC, from 1990-1991. Since 1991, his clinical experience includes working in pediatric emergency and intensive care medicine, in-patient and out-patient pediatric medicine, neonatal intensive care medicine, newborn and delivery room medicine, and conventional, holistic and integrative pediatric private practice.

Dr. Palevsky is a diplomate of the American Board of Integrative Holistic Medicine, and Past-President of the American Holistic Medical Association. He received his pediatric board certification in 1990, and passed his pediatric board recertification exams in 1997, 2004, and 2011.

In his current practice in Northport, Long Island and Manhattan, NYC, Dr. Palevsky offers well-child examinations, consultations and educational programs to families and practitioners in the areas of preventive and holistic health; childhood development; lifestyle changes; nutrition for adults, infants and children; safe, alternative treatments for common and difficult to treat acute and chronic pediatric and adult conditions; vaccination controversies; mindful parenting; and rethinking the medical paradigm. Additionally, he teaches holistic integrative pediatric & adolescent medicine to parents, and medical and allied health professionals, both nationally & internationally, and is available for speaking engagements worldwide.
