READ THIS

**New Book by Robert F. Kennedy Jr. and Brian Hooker:
Vax-Unvax: Let the Science Speak**

A new book by Robert F. Kennedy and Brian Hooker with a foreword by Del Bigtree focuses on the studies the CDC refuses to do on vaccine safety, but most people think they do.

Vax-Unvax: Let the Science Speak is based on over one hundred studies in the peer-reviewed literature that consider vaccinated versus unvaccinated populations. Each study is analyzed, and health differences among infants, children, and adults who have been vaccinated and those who have not are presented and put in context.

Readers will find information on:

- The infant/child vaccination schedule
- Thimerosal in vaccines
- Live virus vaccines
- The human papillomavirus (HPV) vaccine
- Vaccination and Gulf War illness
- Influenza (flu) vaccines
- Hepatitis B vaccination

- The COVID-19 vaccine
- Vaccines during pregnancy

Given the massive push to vaccinate the entire global population, this book is timely and necessary for individuals to make informed choices for themselves and their families.

Purchase Vax-Unvax: Let the Science Speak here:
