

Dear Friends,

Welcome to the Holistic Child Health Newsletter.

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children.

Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

Lawrence B. Palevsky, MD

RECOMMENDED BY DR PALEVSKY

PRIME  **BODY.**

Let me introduce you to **Prime My Body....**

As a pediatrician, I see children dealing with levels of extreme anxiety like never before. The constant fight or flight response affects all aspects of our well-being - sleep patterns, emotional and mental states, ability to focus and manage trauma. It was recently discovered that we have an endocannabinoid system that regulates all of the other systems in our body. This system has become deficient with the overload of toxins and excessive stress from today's world. Hemp, which is a food high in cannabinoids, brings our bodies back into balance when we consume it.

**PLEASE DOUBLE CLICK ON THE IMAGE BELOW TO WATCH
THIS VIDEO MESSAGE FROM DR PALEVSKY**

I specifically recommend the **CALM** Formula, which contains both CBD and CBG, for children as a solution to support the body during these traumatic times and naturally restore their bodies to a state of homeostasis. It can be taken in the morning before school or daily activities and/or at night before bedtime to help with sleep.

- Helps quiet restless, racing brain activity
- Suppresses sleep-inhibiting hormone messaging
- Supports mind & body homeostasis
- Supports composed and balanced well-being
- Promotes the activation of natural melatonin release
- Helps to regulate and balance mood

Some children do better with more CBG and in that case I would recommend the **FOCUS** Formula, which has a higher concentration of CBG along with other terpenes. Many children who have a hard time concentrating would benefit from a dose of FOCUS before school or morning activities. CBG serves as the pre-cursor or mother phytocannabinoid to many others, including CBD and THC.

Because industrial hemp plants are known to produce only trace amounts of CBG, sophisticated measures are taken to only extract CBG for its use in FOCUS.

Having a direct effect on the endocannabinoid system and cannabinoid receptors, CBG provides a wealth of benefits that support preventative, chronic, and acute care. A major finding of CBG is its neuro-protective and neuro-regenerative traits. It is also a valuable resource for gut health!

- Completes the entourage effect
- Contains anti-bacterial properties
- Promotes neuro-regeneration/protection
- Supports bone health
- Improves mood & gut health
- Supports rest & sleep
- Promotes Natural Analgesic (discomfort relief)

Other children do better with only CBG and for those children I would recommend the **SHIELD** product which only has CBG along with other powerful immune boosting botanicals. SHIELD's 18 carefully curated botanical ingredients + CBG provide a wide-range of immune-supportive benefits that help to protect you. The MCT oil base (unlike the other two formulas) targets the gut and digestive tract so that the body absorbs it differently than the other products that enter directly into the blood stream with their nano-particle size. The elderberry taste is also well received by children or easily added to juice.

- Supports and stimulates optimal immune function
- Minimizes stress that impairs immune health and its response system
- Promotes white cell production
- Supports faster recovery during declined health
- Helps balance endocannabinoid system function

I highly recommend trying a variety of products and doses for your children (and yourself) to see which work best for you. As I mentioned in my video, this is the first time I have ever endorsed any product of any kind, but I believe our cannabinoid systems need to be nourished and have seen improvements in my patients who whose CBD and CBG - and these are products I feel confident to stand behind.

You can learn more about these hemp related products by going to drpalevsky.primemybody.com

Give them a try and please share with us your family testimonials! We want to hear how they work for you so we can begin to document the

results.

Watch Gary Null's Latest Documentary..Science for Hire

Science for Hire takes us on a journey through some of the most critical scientific issues of our day, and which directly affect our health and well being. Following a long history of systemic corruption across medical institutions, academia, scientific publications and government regulatory agencies, we enter a world where pseudo-science and misinformation rule. This is a story about a broken system. Yet it offers some hard hitting solutions to spark a clarion call to take heed of the realities facing humanity today. We appreciate you viewing this documentary and sharing it with your network, along with the growing number of other documentaries that bring light to the powerful non-democratic forces in government, private industry and a compromised intelligentsia that no longer have our best interests and security in mind. UPCOMING EVENTS

Enjoy Learning About Health at the Regenerate Yourself Masterclass

November 28 – December 4, 2022!

Radical resilience, not disease, is your body's destiny!

With accelerated aging, chronic disease and a growing sense of depletion having reached epidemic proportions, modern medicine and human health are at a critical crossroads. The truth is that YOU, and not your genes, are in control of your health and wellness destiny.

Encoded within every tissue of your body is the ability to regenerate — mechanisms that provide you with the right to a life of joy and vitality.

By listening to and trusting the innate intelligence of our bodies, we can all look and feel healthier, stave off life-threatening chronic diseases and strive towards living vibrant long lives.

Join Sayer Ji at this masterclass to activate your body's natural resilience by learning:

- Fascinating new science of “food as information”
- How to use spices, common foods and culinary techniques as “medicine”
- Facts about cancer and heart disease screening (and prevention!)
- How your body extracts energy from sources other than food
- To reverse the most common forms of degeneration (with food!)
- Regenerative, simple fitness practices with maximized effects
- How to sort through conflicting, out-of-date dietary recommendations
- And so much more!

Why attend this important health event?

During this epic, 7-part masterclass, you'll learn cutting-edge research that will open your eyes to having full control of your health destiny...

... for renewed vitality, energy and joy that are 100% your birthright.

You'll learn how revolutionary new developments in biology can be used to help prevent and manage the most common health afflictions of our day: cancer, heart disease, neurodegenerative diseases and metabolic syndrome.

Antiquated thinking and scientific dogma have long obstructed the true understanding of our innate untapped potential for self-regeneration and radical healing. When you learn instead to implement nature's tools of resilience, biological time is NOT a downward spiral and chronic illness is NOT inevitable.

Yes, you truly have the means to get started on better health today!

Be sure to mark your calendar for Nov. 28 – Dec. 4, 2022!
